DRAFT

PROPOSED ADMINISTRATIVE INSTRUCTION

SUBJECT: CIA LIAISON WITH FBI

1. The purpose of this instruction is to define and establish liaison channels between CIA and the Federal Bureau of Investigation, in order to facilitate exchange of information with the FBI and eliminate duplication of requests by different areas of CIA. The liaison channels are based on the substance of information which is received from the FBI.

2. There are hereby established five liaison channels, as follows:

a. The office of the Director of Central Intelligence, including the Director, Deputy, and Executive.

b. Chief of Inspection and Security for all matters pertaining to internal security, which includes information concerning investigation and of all personnel, physical security investigative information, information of an operational support nature, espionage affecting internal security, and any special information falling within the scope of internal security.

c. Assistant Director, OSI, for all matters pertaining to counter-espionage, and for other matters pertaining to the internal security of the United States which may be of value to CIA in producing national foreign intelligence.

d. Assistant Director, OGC, for all matters pertaining to the requirements for national intelligence, and for the collection and dissemination thereof. The intelligence product of the FBI under its internal security mission is largely in the counter-espionage and

subversive field. Due to the fact that the Assistant Director, NSC, has primary operational cognizance of counter-espionage, and to have duplication in the collection of this highly sensitive material, all collection requests made by CIA on the FBI will be routed through the Assistant Director, DSO (OS Branch).

c. Assistant Director, OFC, for information pertaining to special operational problems concerned with OP) excluding categories falling in a, b, c, and d above.

3. Information pertaining to internal security, counter-espionage and special operational information is highly sensitive and is only for use by the areas of CIA as specified. The liaison control officers, as defined, will be responsible for information received through their respective channels and further dissemination within the Agency will be entirely at their discretion. In any case where an area of CIA desires information not specified above as being within their liaison control channel, an appropriate request should be addressed to the liaison control officer for that category of information.

4. No request is to be made of the FBI for information by CIA personnel except as authorized through the established liaison control officers.

5. Nothing in this instruction is intended to interfere with the working relationship between co-members of JAC or other committees upon which both CIA and FBI are represented. In addition, any discussions with the FBI at the working level which are thought necessary may be arranged through the appropriate authorized channel above.

*Itaps should have direct liaison with Standing Committee Member.*
